Entered at the Postoffice in Tonopah as second class matter.

FOR PRESIDENT . . . . . WILLIAM H. TAFT  
FOR VICE-PRESIDENT . . . . . JAMES S. SHERMAN

## EDITORIAL COMMENT.

### IMPROVEMENT IN BUSINESS CONDITIONS.

There is an improvement in business conditions all along the line. Ask any merchant in Tonopah and his face will light up and the response is something like this: "Yes, we have noted an increase which ranges any where from 2 to 25 per cent in the last thirty days."

The leading trade reviews in the country all grant that while progress is slow a gradual return to normal conditions is what we can expect. Published interviews with men in positions which give them the best opportunity to speak all talk of great encouragement for the future and state that by fall we shall be back to the conditions that existed prior to the panic. The evidences of improvement can be found by comparing such indexes as railway earnings, bank clearings and the falling off in commercial failures.

This general feeling of optimism among business men has its effects upon the stock market and the mining section of it is beginning to enjoy the benefit. The permanence of prices and the amount of trading indicates that the coming fall will witness an activity that will equal any in the history of the market. The present rise is not an artificial one, but gives evidence of being a substantial one and likely to continue. There has been a sentiment expressed that owing to it being a presidential year that business from all standpoints would be stagnant. Evidently the election of Taft is a foregone conclusion else why the great activity displayed at the present time.

### THE VOLUNTEER FIRE DEPARTMENT.

The practice run of the volunteer fire department on Sunday evening is certainly a move in the right direction. A city like Tonopah while its paid fire department is the best anywhere for its size must naturally rely upon the aid of citizens in cases of conflagration. Too much praise cannot be bestowed upon the men who sacrifice their time, health and personal belongings as fire fighters in the protection of the homes, lives and property of their fellow citizens. By their demonstration on Sunday evening they prove that the organization is being directed by men who have an idea of system and who can quickly subdue any fire that may occur. The gift of the unknown citizen, of a loving cup to be contested for instills good natured rivalry and the applause of the citizens as he watches the trial runs are good ideas, to follow out.

A New York mother, giving birth to sickly twins, has placed the youngsters in an incubator for the present. One has been named Bryan and the other Taft. Here's hoping they may not add to the anxiety of their parents by chewing each other up.—Mining Record.

## RUNS INTO SEAM OF PURE GOLD

In the 450-foot level of the famous Sunnyside mine of the Round Mountain Mining company a seam was encountered during the week which was practically pure gold.

The men in the 450-foot are working in a 25-foot body of ore, all of which is milling rock and is a part of that which goes to make up the monthly bullion returns of the Sunnyside mill.

The seam was found running across the face of this ore body. It was about three-quarters of an inch in thickness and it continued for two days. It was like taking out a three-quarter inch gold plate. Specimens of this seam as it lay between the rock of the ore body were shown the Nugget representative by Superintendent McDonald and they were indeed remarkable.

When asked if the seam had been sacked as it was taken out, Mr. McDonald replied: "No, it was taken out with the regular milling ore and went through the mill for general results." To the average man who saw the samples Mr. McDonald had for exhibition it seemed like a rank profanation that such stuff should go through a mill. A plush-lined show case seemed to be the proper place for it.

Just a few days prior to encountering this pure gold seam a talc seam was found in the 550-foot level which went about \$1000 to the ton.

While, to the seasoned mining man, these seams and pockets of high grade are but amies in the pan, it must be remembered that the Sunnyside mine has an ore body ranging from eighteen to twenty-five feet in width which will run from \$8 to \$40 per ton and that this ore body starts at the surface and extends in the deepest workings of the mine.

Main St., Tonopah

Herein lies the tremendous potential value of the mine, but the additional bonus of a few thousand dollars every few days in the form of Jewelry not only tends to swell the grand average of mill returns, but it also goes to show that there is a vast amount of gold hidden away, both in kidneys and impregnated through the rock.

The little mill is doing an amazing amount of work, but work as it will, Superintendent McDonald, as he puts it, is "always choked up with ore."—Round Mountain Nugget.

## TYPEWRITER IS GIVEN DAMAGES

RENO, July 27.—The jury in the damage suit of Kathryn Collins vs. the Nat. C. Goodwin Brokerage company after being out less than an hour Saturday returned a verdict for the plaintiff in the sum of \$1625. It is understood the defendants will appeal from the decision. Miss Collins sued the brokerage company for damages amounting to \$5125 for not providing her with the proper kind of a chair. She was employed as stenographer by the brokerage company and worked from February 22 to March 23, and during that time used a chair much too high. On account of her feet not touching the floor, she claims, serious spinal trouble was superinduced so that she had to have two operations performed. For the damage to health, expense of hospital treatment, etc., she claims the above amount.

### STEVENSON TO RUN FOR GOVERNOR.

BLOOMINGTON, Ill., July 27.—Adlai E. Stevenson, former vice president of the United States, tonight announced his candidacy for governor on the Democratic ticket.

Location notices in triplicate—handiest affair for prospectors and miners—contains carbon—150 notices in book. For sale at the Bonanza office.

Five year old claret at \$1.50 per gallon. H. J. Hall & Co.

## IS GRANTED HER SIXTH DIVORCE

LOS ANGELES, July 27.—Mrs. Grace-Snell-Coffin-Walker-Coffin-Layman-Love became the champion divorcee of the world today, when Judge James granted her a divorce from her latest husband, Hugh M. Love, secretary of the board of health. She charged cruelty in that he choked her, treated her in a brutal and inhuman manner, and refused to pay her bills. Once, when she was giving a musicale, she testified, Love appeared on the scene in his pink pajamas and bathrobe, took a seat among her guests, put his feet on the top round of a chair, and complacently smoked his pipe. The ladies and gentlemen she had invited folded up their music and left, she said.

Mrs. Love was formerly Miss Grace Snell, daughter of Amos J. Snell, the Chicago millionaire banker, whose murder twenty years ago, became a national mystery, and never has been cleared up. Her marital experiences have attracted equally wide attention. She was thrice the bride of Coffin and the same number of times divorced from him. Love's predecessor as her husband was a young hotel clerk. Mrs. Love possesses a fortune. There are rumors of another approaching marriage.

## SERVIAN PRIEST IS AN ANARCHIST

CHICAGO, July 27.—"President Roosevelt ought to be killed." These words, alleged to have been uttered by Rev. Steven Bozichkovich, a priest in the Servian church at Chicago, are responsible for his present detention at Ellis island on the ground that he is an anarchist and undesirable citizen.

According to an affidavit furnished to the department of commerce and labor by D. D. Davis, immigration inspector in charge of the Chicago office, forwarded to Washington July 15, the Servian priest is a rabid anarchist and is strongly opposed to our form of Government.

## INVITATION TO BUSINESS MEN

The Reno Commercial club has opened its doors to the members and issued general invitation to the business and professional men of the entire state to visit their handsome quarters in the Odd Fellows building in Reno.

It is intended that the club shall be the center for all that is progressive in commercial matters. The club will be the chamber of commerce for the entire state, the same as the Nevada Commercial league was before it. In addition, the club will be the place where the mining man will take his associates to talk business when in Reno, and where the visiting professional or business man will make his headquarters.

That the people of Reno have taken to the new club with zest is evident by the splendid charter list of 163 names. This list includes the names of the most representative men of the state, giving to the club a prestige which augurs well for the future.

The directors of the club wish all visitors to Reno from any part of the state to visit the rooms and make themselves at home. Let every one from here accept the invitation when next in Reno.

Clarence F. Lea of Santa Rosa, California, district attorney of Sonoma county, is in the city on legal business.
